

I claim:

1. A roll of masking tape, comprising:
 - (a) a core; and
 - (b) a length of masking tape wound around the core;
 - 5 (c) wherein the masking tape comprises (i) an adhesive side and a non-adhesive side and (ii) a plurality of longitudinally spaced, laterally extending separation lines, each of the separation lines spaced longitudinally to define a segment of the tape sized to cover a standard electrical wall outlet.
- 10 2. The roll of masking tape of Claim 1, wherein the separation lines further comprise perforations.
3. The roll of masking tape of Claim 2, wherein the length of tape further comprises a first edge extending longitudinally and the perforations further comprise a first elongated cut extending from the first edge to a first termination point inward from the edge, and a plurality of perforations extending axially away from the termination point.
- 15 4. The roll of masking tape of Claim 3, wherein the segment of tape has a length and a width and wherein the length is less than 4 1/4 inches and the width is greater than 1 1/4 inches.
- 20 5. The roll of masking tape of Claim 4, wherein the length of tape further comprises a second edge opposite the first edge and the perforations further comprise a second elongated cut extending from the second edge to a second termination point inward from the second edge.
